To Shannon:

On behalf of the American Czech Educational Center, I'd like to give our sincere thanks to your youth service group and adult supervisor that worked at our Center on July 23rd performing various landscaping efforts for our Center.

My wife Donna worked with your group and (same as last year) thought your youth volunteer effort should be an example for all of us. I've also heard several other compliments regarding both the job you did and also in regards to the impression your group left upon our members that met them on that day.

Thanks again and please make sure all appropriate people from your organization are aware of our appreciation.

Sincerely,

Rob Newcomer
